

ELARA CORE.3

Intelligent desktop voice assistant

Your Personal AI Companion for Productivity, Focus, and Smart Automation

Official User Manual, CORE.3 Stable Edition, Windows AI Assistant
System, 2026 Edition

1. Introduction

Welcome to ELARA CORE.3, the next generation of AI-powered desktop voice assistance. ELARA CORE.3 is meticulously engineered to enhance your daily workflow, providing seamless integration for productivity, dedicated study assistance, intelligent automation, and intuitive smart desktop interaction. Experience a new paradigm of computing where your voice commands unlock unparalleled efficiency and control.

2. System Overview

ELARA CORE.3 empowers you to interact with your desktop environment in entirely new ways. Effortlessly control your applications, navigate the web, manage your notes, perform complex calculations, set timely alarms, listen to PDF documents, and much more, all through natural voice commands. ELARA CORE.3 understands and executes your instructions with precision, streamlining your tasks and freeing you to focus on what matters most.

3. Key Features

Feature	Description
Voice Recognition	Advanced natural language processing for precise command understanding.
AI Speech Response	Intelligent and human-like responses to your queries and commands.
Study Mode	Dedicated environment to minimize distractions and enhance focus.
Alarm System	Set, manage, and receive timely notifications for alarms.
Smart Calculator	Perform complex calculations with simple voice commands.
Notes Management	Easily create, read, and manage notes and to-do lists.
PDF Reader	Listen to the content of PDF documents read aloud.
Screenshot Tool	Capture screenshots of your desktop or specific areas with voice commands.
System Monitoring	Monitor CPU and RAM usage for optimal PC performance.
Browser Automation	Control web browsing, open pages, and perform searches effortlessly.
Entertainment Controls	Manage music and streaming services with simple voice prompts.

4. Voice Commands

Command	Action
Open Notepad	Launches the Notepad application.
Open Word	Launches Microsoft Word.
Open Excel	Launches Microsoft Excel.
Open PowerPoint	Launches Microsoft PowerPoint.
Open CMD	Launches the Command Prompt.
Open Google	Opens the Google search engine in your default browser.
Open Facebook	Opens Facebook in your default browser.
Open Spotify	Launches the Spotify application.
Open Netflix	Opens Netflix in your default browser.
Open YouTube	Opens YouTube in your default browser.

5. Productivity Features

ELARA CORE.3 is designed to revolutionize your workflow. By leveraging the power of voice control and intelligent desktop automation, ELARA streamlines repetitive tasks, manages your applications, and provides instant access to information. This allows you to dedicate more time to critical thinking and creative endeavors, significantly boosting your overall productivity.

6. Study & Focus Tools

Enhance your learning and concentration with ELARA's dedicated study tools. Activate **Study Mode** to minimize digital distractions, utilize the **Study Timer** for structured learning sessions, and engage **Focus Sessions** for deep work. ELARA's **Motivation System** provides encouragement, and quick access to **Educational Websites** keeps learning resources at your fingertips.

Example Commands:

- "Study mode on"
- "Start study timer for 45 minutes"
- "Begin focus session"

- "Motivate me"

7. Notes & Task Management

Keep your thoughts organized and your tasks on track with ELARA's intuitive note-taking and task management features.

Example Commands:

- "Add note: Remember to buy groceries"
- "Read my notes"
- "Delete last note"
- "Add task: Prepare presentation for Friday"
- "Show my tasks"

8. Alarm & Timer System

Never miss an important moment with ELARA's reliable alarm and timer system. Set custom alarms, manage notifications, and utilize timers for various activities.

Example Commands:

- "Set alarm for 5:30 AM tomorrow"
- "Set a 15-minute timer"
- "Stop alarm"

9. Smart Calculator

Perform everyday and complex calculations with ease using ELARA's intelligent calculator. Simply speak your mathematical expressions naturally.

Supported Calculations:

- "What is 5 plus 5?"
- "Calculate 10 divided by 2"
- "5 power 2"
- "What is 9 into 81?" (for division)
- And many more arithmetic and algebraic operations.

10. Browser & Web Features

Navigate the web and access information instantly with ELARA's integrated browser control and web features. Perform quick searches, find information, and manage your online presence with simple voice commands.

Features Include:

- Google Search
- YouTube Search
- Instant Translation
- Dictionary Lookups

11. Entertainment Features

Control your entertainment experience hands-free. ELARA CORE.3 seamlessly integrates with popular music and streaming platforms, allowing you to play, pause, and manage your media without lifting a finger.

Supported Platforms:

- Spotify
- Netflix
- YouTube Music
- And other supported applications.

12. System Monitoring

Keep an eye on your system's performance. ELARA can provide real-time updates on your CPU and RAM usage, helping you maintain optimal system health.

Example Commands:

- "System status"
- "What is my PC health?"

13. PDF Reader

Access and consume information from your PDF documents like never before. ELARA CORE.3 can read the content of PDF files aloud, making it easier to review documents while multitasking or for users with visual impairments.

14. Password Generator

Enhance your online security with ELARA's integrated password generator. Create strong, unique, and secure passwords for all your online accounts with a simple voice command.

15. Dictionary & Translation

Expand your vocabulary and break down language barriers. ELARA provides instant dictionary lookups for word definitions and supports real-time translation services for quick communication and understanding.

16. Screenshot Tool

Capture important visual information instantly. ELARA's screenshot tool allows you to take screenshots of your entire screen, a selected window, or a custom area using only your voice.

17. Troubleshooting

Problem	Solution
Microphone Not Detected	Ensure your microphone is properly connected and selected as the default input device in Windows settings. Check ELARA's audio settings.
Voice Recognition Issues	Speak clearly and at a moderate pace. Ensure you are in a quiet environment. Recalibrate microphone in Windows settings. Check for software updates.
Alarm Not Sounding	Verify that alarms are set correctly and that ELARA is running. Check Windows notification settings and ensure ELARA is not muted.
Slow Response Time	Ensure your PC meets the recommended system requirements. Close unnecessary background applications. Check your internet connection stability for cloud-based features.

18. Recommended Setup

Component	Recommendation
Operating System	Windows 10 or Windows 11 (64-bit)
RAM	Minimum 8GB RAM (16GB Recommended)
Microphone	High-quality, noise-cancelling microphone for optimal voice input.
Internet Connection	Stable broadband internet connection for AI cloud features and updates.
Storage	500MB free disk space (SSD Recommended)

19. Future Features

We are continuously innovating to bring you the most advanced AI experience. Future updates for ELARA CORE.3 are planned to include:

- **Face Recognition:** Enhanced user identification and personalization.
- **Smart Home Integration:** Control your smart home devices with your voice.
- **Offline AI Capabilities:** Core functionalities available without an internet connection.
- **Advanced AI Chat System:** More natural and conversational AI interactions.
- **Mobile App:** Companion app for extended control and synchronization.
- **Cloud Sync:** Seamless synchronization of settings and data across devices.

20. Credits & Technologies

ELARA CORE.3 is built upon a robust foundation of cutting-edge technologies and open-source libraries, enabling its advanced capabilities. We extend our gratitude to the developers and communities behind:

- **Programming Language:** Python
- **Text-to-Speech:** pyttsx3
- **Speech Recognition:** SpeechRecognition
- **Data Management:** sqlite3
- **Automation:** pyautogui
- **System Monitoring:** psutil
- **Concurrency:** threading
- **PDF Handling:** PyPDF2

Next Steps

Congratulations on setting up ELARA CORE.3! To get the most out of your intelligent desktop assistant, we recommend:

1. **Explore Voice Commands:** Refer to the 'Voice Commands' section and practice using various commands.
2. **Customize Settings:** Visit the ELARA settings panel to adjust audio input/output, customize voice preferences, and configure startup options.
3. **Integrate with Workflow:** Experiment with ELARA's productivity and study features to see how it can best fit into your daily routine.
4. **Stay Updated:** Ensure you have automatic updates enabled to receive the latest features and performance enhancements.
